

Clovis Fire Department

Standard # 33

COMPACTOR FIRE PROTECTION

The Clovis Fire Department has adopted the following fire protection standard with regards to the installation of all trash compactors utilized in the City of Clovis.

Install a 2½" Fire Department Connection to the trash compactor with an approved brass cap on a chain. The 2½" connection shall swivel so as to attach to a standard fire department 2½" hose with (nst) National Standard Threads.

The connection may be connected to the existing 2" fire port on most compactors or another connection may be made, but must be available for easy access.

Should you have any questions regarding this requirement please contact the Clovis Fire Department at (559) 324-2200.
